

System Manual:

Minimum hardware and software requirements:

Only Android devices

Operating System: Android Lollipop (minimum software required)

Minimum Storage: 12MB of free space

Internet Connection Required

Install Roomie

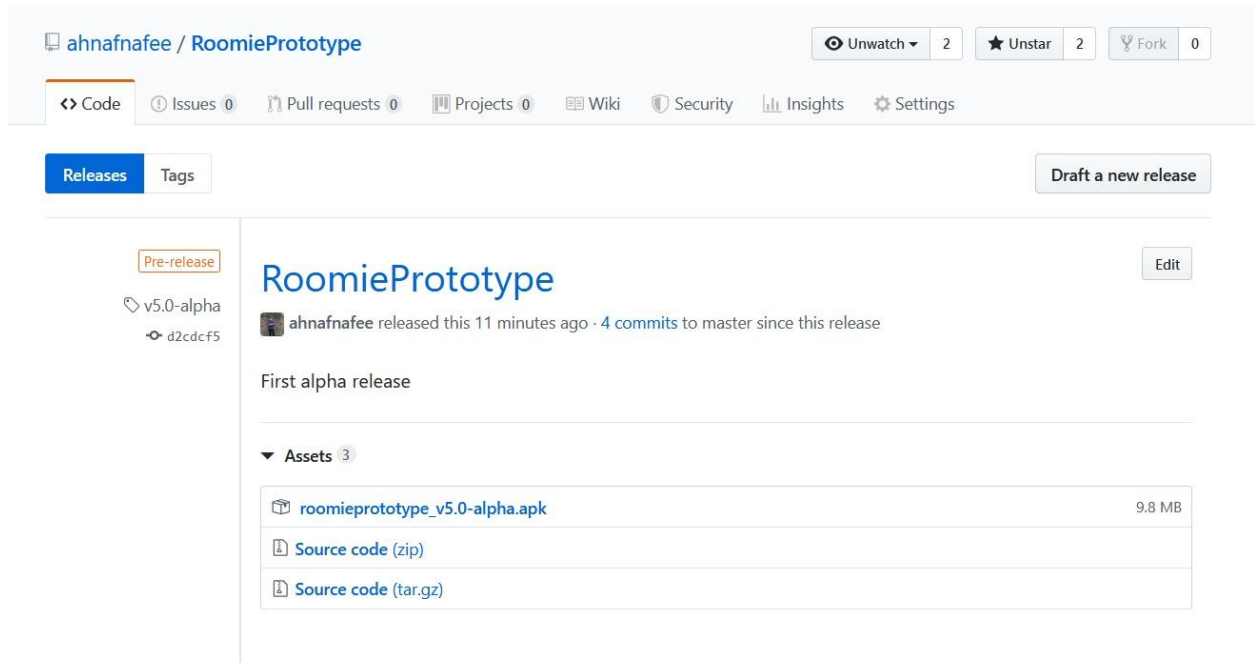

Again, Roomie works on Android devices

Option 1

1. Go to the GitHub repository
2. Select the releases tab
3. Download the .apk file from there
4. Copy the file to your android phone
5. Install the app into the phone

The screenshot shows the GitHub repository page for 'RoomiePrototype' by user 'ahnafnafee'. At the top, there are buttons for 'Unwatch' (2), 'Unstar' (2), and 'Fork' (0). Below this is a navigation bar with links for 'Code', 'Issues' (0), 'Pull requests' (0), 'Projects' (0), 'Wiki', 'Security', 'Insights', and 'Settings'. The repository name 'RoomiePrototype' is displayed, along with a description 'Tinder Style Roommate Finder App' and a list of topics: 'android', 'java', 'roommatefinder', 'material-design', 'material', 'recyclerview', 'design', and 'Manage topics'. A summary bar shows '180 commits', '4 branches', '1 release', '4 contributors', and 'MPL-2.0' license. Below this is a section for the latest commit, 'Ahnaf An Nafee Updated README', with a timestamp of 'Latest commit 3e4566c 4 minutes ago'. A table lists recent commits:

Commit	Message	Time
.circleci	Update config.yml	26 days ago
.idea	Added progress bar in MatchingScreen	2 days ago
.settings	Merge branch 'Saharsh' into ahnaf	17 days ago
vscode	Added Image Slider in user account	16 days ago

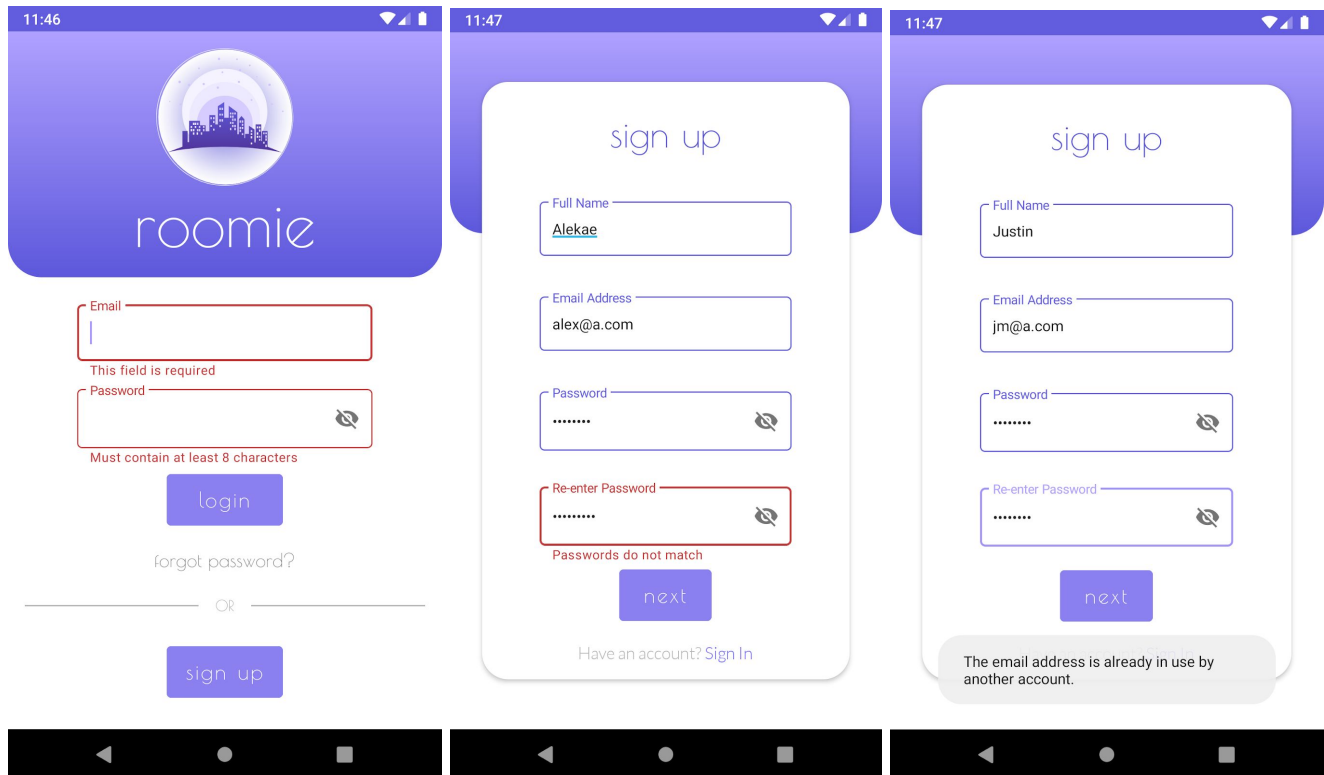

Option 2 (Coming soon)

1. Open the Google Play Store
2. Tap the Apps icon on the home screen
3. Tap the magnifying glass in the top right and type in "Roomie"
4. Tap the install button at the top to start downloading
5. Once the download and installation are complete, tap the Open button in the Play Store listing, or tap the icon from the notification tray to open your app

Error messages and troubleshooting:

When signing up, a .edu email and at least an 8 character password are required. If these requirements are not met, an error message will appear, this can be easily fixed by entering the necessary inputs.
